To All of Our Customers

It is with honor and humble hearts, that we are able to offer our new product catalog to you, our most important customers. We are so excited about the upcoming opportunities to service our expanding markets in the United States.

For those of you who may be just engaging with us for the first time, we have listed a little about our history in the graphic market place. It is our privilege to service you.

A little history ...

You cannot become one of the largest Digital Media Suppliers around Brooklyn and New York Metro overnight. Founded in 2004, our company has a long history of servicing some of the largest printers in North America.

A&J Visual Solutions services commercial and digital print markets in the large format and offset printing industry. We are a supplier of all media, laminates, and substrates from self-adhesive vinyl to PVC sheets. Our R&D group constantly enhances our product reliability to our customers. Our product innovation gives our clients (Print Providers) the ability to achieve aesthetic visual quality for the Brands. A&J Visual Solutions partner with many manufacturers around the globe.

We are pleased to announce our NEW PRODUCT "MASTER" line. Please review the new **Master Line** listed in this Product Review Guide.

A&J Visual Imaging Solutions services our clients with media solutions for every project. We work with retailers to specify products that can be "game changers" in the digital market place for commercial and digital print providers. We are the media leaders in our industry. We Drive Change.

A&J Visual Imaging Solutions supports our clients with a large portfolio of products, support, and solutions based services. We provide product requirements for commercial, specialty media, printing & finishing solutions for the P.O.P., Display and Decoration markets.

OUR ADVANTAGE:

- Premier Industry Partner With Leading Manufacturers
- Sales Philosophy - Solutions Based
- Brand Specification to Retail/End User Level
- Same Day Shipping in Stock Items
- Technical Support
- Training & Education - Project and Sales Teams
- Competitive Pricing

TO PLACE AN ORDER

We are pleased to assist our customers with the Order Entry Process. If you prefer, orders may be placed with us either via email, on the telephone, or on our website.
We are open from 8am – 5pm Monday – Friday, except major holidays.

📞 **(877) 744-8111 / (718)-971-5276**

🌐 **www.ajvisualsolutions.com**   ✉️ **sales@ajvisualsolutions.com**

SHIPPING INFORMATION

Same Day Delivery
• We offer same day delivery to most areas in Long Island City, Manhattan, and Brooklyn.
• We ask that orders be placed by 11am for same day delivery.

Shipping
• Shipping Method: *In-House Delivery Service, UPS – Ground, NDA, 2nd Day Air*
• Larger shipments ship motor freight (No C.O.D.'s on freight).
• Fuel Surcharge: Fuel charge may apply to shipments.
• Inks may be considered hazardous and may not be shipped Express Air.
• Shipping Estimated Schedules: A&J Visual Imaging Solutions offers various items for immediate shipping.
• Custom orders may take longer to ship.
• If your order requires special consideration or handling, please contact our sales support staff, or customer service.

Delivery / Shipping Charges
• We offer UPS ground shipping free for orders over $100... If your items are considered to be oversized, it may be excluded from our free shipping policy, and our current shipping rates may apply.
• Shipping charges will apply for all items not listed in the summer Product Catalog and for all custom orders.

RETURN POLICY

• Within 30 days from the date of purchase, A&J Visual Imaging Solutions offers exchange and/or return of stocked items. No returns will be authorized for products after 30 days following the invoice date.
• Before a return is accepted by A&J Visual Solutions, returns and/or exchanges must have a return authorization number assigned by the Sales Agent, VP of Sales, and or Customer Service.
• Custom items are not eligible for return. Items that are non-stock items are not eligible for return...
• We take no responsibility for labor and material costs incurred due to incorrect products that are not tested or found to be acceptable for the customer application. If a product is found to be damaged, we will inspect and if it is found to be in question, we will replace stock only. Please sign off on your product as noted with any concerns at the time of delivery. A visual representation will be noted by our delivery team if the customer states concern or it is evident upon delivery to your location.

PRICING - A&J Visual Imaging Solutions may have incremental price changes on products.

WARRANTY

A&J Visual Imaging Solutions has no expressed warranties beyond the stated warranties of the product manufacturers. A&J Visual Imaging Solutions does not agree to be held liable for any labor cost incurred by defective products warranted by the product manufacturers.

Product Content Index

Satin Photo Paper – 8 Mil

A high quality paper giving photo quality output with a low sheen finish. This product has an abrasion resistant surface and lamination is not required. This paper dries much faster than competitive product

JM Technical Textiles - Mediatexmeets the specific demands of printed images used in various applications. Mediatex fabrics are different because of their special coating. Conventional fabrics simply let the light shine through the material, causing colors to fade. However, the micro-porous coating of Mediatex products intensify color brilliance. The flexible materials make it easy to process, do not show kinking or white brittle, and can be printed with all solvent and UV inks.

FABRIC
Mediatex

Mediatex JM Air
Substrate 100% PES

Highly brilliant print, Coated with a special polymer with high whiteness, water repellent, no creasing, dirt repellent, trimming hot or cold (without fraying), soft hepatics. Pretesting recommended

B1, M1, NFPA 701, ÖNORM T1/Q1 certification
Applications: Indoor, Banner, Art reproduction, Wall Covering, Exhibit systems, Roll ups, Banner, most of graphic applications.

- AJS Finish Choices: **Gloss**

- Printer Compatibility:
  Solvent / Eco Solvent / UV Cure / HP Latex

SuperPrintfi Plus Eclipse FL

SuperPrint Plus Eclipse is the black backed (black/white) version of our SuperPrint Plus FL. It is engineered for open frame billboard systems or any application where complete opacity is required. SuperPrint Plus Eclipse has all the same features as SuperPrint Plus including a 1000 x 1000 scrim construction which not only makes it strong, but also allows the material to lay flat when tensioned around a billboard. This product comes in a gloss finish and is available in 126", 150", 177", and 196" widths.

Strip Mesh Plus 8oz

Strip Mesh is a 8oz mesh with backer that can be easily removed after printing. The specially designed backer creates an air-tight print surface that prevents ink spray through and allows vacuum equipped printers to hold material flat during printing. The backer is specifically formulated to work with Latex, solvent, eco solvent, and UV printers. Strip Mesh has 63% printable area and is ideal for outdoor banners, building wraps, fence mesh graphics, and boulevard banners in high wind areas. Strip Mesh Plus is best suited for front-lit signs and banners and allows 37% air-flow through. This product is available without a PVC backer, called UltraMesh Plus. Strip Mesh Plus is available in widths ranging from 54" – 98".

- AJS Finishing Choices: **Grand Format Mesh**
- Printer Compatibility: **Solvent / Latex / UV**

DISPLAY SIGNAGE
Polyester Pearl Satin for Front and Backlit

DualTex HD U360
10.6oz. Polyester Pearl-Satin

DualT e x™ HD U 360 is a 10.6oz woven polyester with a pearl-satin finish on front and plain weave on back side. 20% of the polyester is reclaimed and is 100% recyclable. It is bath coated with a digital water base, 95% biodegradable coating. The material is optically white with under 0.5% color tolerance lot to lot. A unique dual application feature allows this fabric to be used for front-lit or back-lit signs with a vibrant, high-definition appearance. This product is printable with Dye Sub transfer, Dye Sub direct, some UV and Latex printers.

FLOOR FOR COMMERCIAL VINYL GRAPHICS

G-Floor Graphic Media Commercial Vinyl Flooring

A commercial grade vinyl flooring product that is customizable with grand-format solvent and UV, digital and screen printing equipment. With G-Floor, you are no longer creating floor graphics, but graphic floors. It allows you to print directly to the product, mirroring the image for second surface viewing and much greater durability and versatility than traditional vinyl floor graphics. Endless pplications include retail/POP, sports arenas, movie theaters, tradeshows, bar/restaurants, temporary floor graphics or mats, counter tops, bank counters, chair mats, mouse pads and much more. G-Floor products are sold on rolls (in 54", 60" and 120" widths) or in sheets (in 48" and 60" widths).

GRAND FORMAT FLEXIBLE FLOOR GRAPHICS

FloorFlex Digital

FloorFlex Digital is a textured, 42 oz printable floor substrate that is suitable for latex and UV printers. This lay flat material is engineered with a certified non-slip surface and a latex padded backing. It is ideal for indoor use but may be used outdoors for short durations. Recommended applications for FloorFlex include corporate lobbies, waiting areas, foyers, tradeshow booth floor graphics, catwalks and various types of promotional events. Note: It is suggested that a double sided carpet tape be placed on the floor beneath FloorFlex to help keep it in place.

AJSCF-ImageJVue-54100	54" x 50'

WINDOW PERFORATED FILM

ClassicJetVue 50/50

ClassicJETVue is an aqueous ink jet –compatible product. This product is made with a patented perforated paper face stock and release liner that absorbs ink. 50/50 perforation pattern provides 50 percent print surface area, making it ideal for vehicle window graphics and other graphics requiring the ability to view easily. This media is an 8-mil black/white composite PVC with 1.5-mm perforations and a white PET release liner.

• Print Compatibility: *Solvent / Latex / UV Cure*

HP 81 Ink

Innovative HP Vivera pigment inks deliver an unmatched combination of outstanding image quality, water resistance and exceptional fade resistance. Interior displays in window 1+ year without lamination, 3+ year when laminated, and 200+ years away from direct sunlight.

UV Pigment Cartridge All Cartridges are 775 ml

Four colors are added to the standard CMYK inks to achieve the widest color gamut and smoothest color transition. Process Cyan, Process Magenta, Process Yellow, Matte Black, Photo Black, Light Cyan, Light Magenta, and Light Gray

- CYAN
- YELLOW
- LIGHT CYAN
- MAGENTA
- BLACK
- LIGHT MAGENTA

HP 83 Ink

Designed to deliver the most brilliant full-color graphics that are lightfast and durable indoor and outdoors. Two additional ink colors, light cyan and light magenta are added to the four basic CMYK inks to achieve the widest color gamut and smoothest color transitions offered by HP large format printers. Built in smart chips constantly monitor ink cartridge levels and alert you when it is time to replace.

Individual Cartridges All Cartridges are 680ml
